cdmessenger@gmail.com

CD Messenger is the only “All in One” solution available in the market which includes all features in one application. You need not to download separate application for sticky, instant messaging, task manager and event reminder. The important significant of Corporate Digital Messenger (CD Messenger) is SSL Security. The software is 100% secured so the data would be secured and also stored on server that can be accessed anytime from anywhere as it does not depend on LAN connection.
