RVM Foundation Hospital (<http://rvmfoundation.org/hospital/index.html>), established in 1998 by **RVM (Ravi V.Melwani)**, was set up to realize the vision of "[Reducing Pain and Suffering](#)" in the society and "[Make a Difference](#)".

The hospital was established by RVM, who was a successful entrepreneur and had his own retail business (Kid's Kemp). At the peak of his career, he decided to dedicate his life to humanitarian, inspirational and spiritual work. He is a widely recognized positive-life philosopher. He is also a nationally acclaimed author, speaker, singer as well as a philanthropist.

RVM Foundation Hospital is a **FREE Hospital** for the **destitute** and **homeless people** of Bengaluru who are diseased and suffering in pain. It is a unique **No-Cash-Counter hospital** with 205-bed facility which reaches out to the underprivileged members of our society and provides **Free Medical Treatment** to them. A dedicated team of Duty Doctors, Nurses and Patient Attenders work round the clock to provide competent medical care, along with food and shelter to the patients.

The hospital has separate wards such as General Wards for male and female patients, along with Burns, Psychiatric, HIV, TB and Orthopedic wards.

As a conscious effort to include the public in this humanitarian initiative to serve the society, the hospital has a **24x7 Medical Helpline number 97395 44444**.

If you come across a poor, suffering and diseased person on the streets of Bengaluru call on this number and our ambulance will pick them up and bring them to the RVM Foundation Hospital and provide free medical care.

Thus far, **RVM Foundation hospital** has helped thousands of destitute, regardless of whether they are handicapped, aged, discarded, diseased or helpless and helps bring back smiles on their faces.
