The RVM Foundation Shiv Temple (<http://shivmandir.org.in/>) was built by RVM and his father in 1995. They had a vision from God to build a temple, which would spread the power of faith in God for generations to come. Since then it became their dream and they envisioned the temple to have a tall Shiva idol with river Ganga flowing down from the head. Several people worked day and night to make the temple a reality.

Today, the temple is the holy abode of Lord Shiva where the gigantic 65-foot tall idol of Lord Shiva stands as a symbol of towering faith. It propagates spirituality and helps a devotee to connect with God.
